

**Legend**

- Bathymetric Contour
- Depth = 0' - 6' (Approximate Area Exposed by 5' Drawdown - 43.2 acres)
- Depth = 6' - 8' (Approximate Area Exposed by 7' Drawdown - 63.2 acres)

Notes  
-Depth contours generated using ArcGIS Spatial Analyst, based on 2009 bathymetry data from Lake Singletary Watershed Association, as measured in reference to the spillway invert elevation.  
-Drawdown depths noted above are based on net change from the normal lake elevation at one foot below the spillway invert.  
-Base data from MassGIS.
